

Plate 3.1 AVHRR aerosol optical depth, four seasons (R. Husar and L. Stowe, personal communication 1995). The Figure incorporates data for the period July 1989 to June 1991; consequently, it avoids the biasing effects of the Mt. Pinatubo eruption.

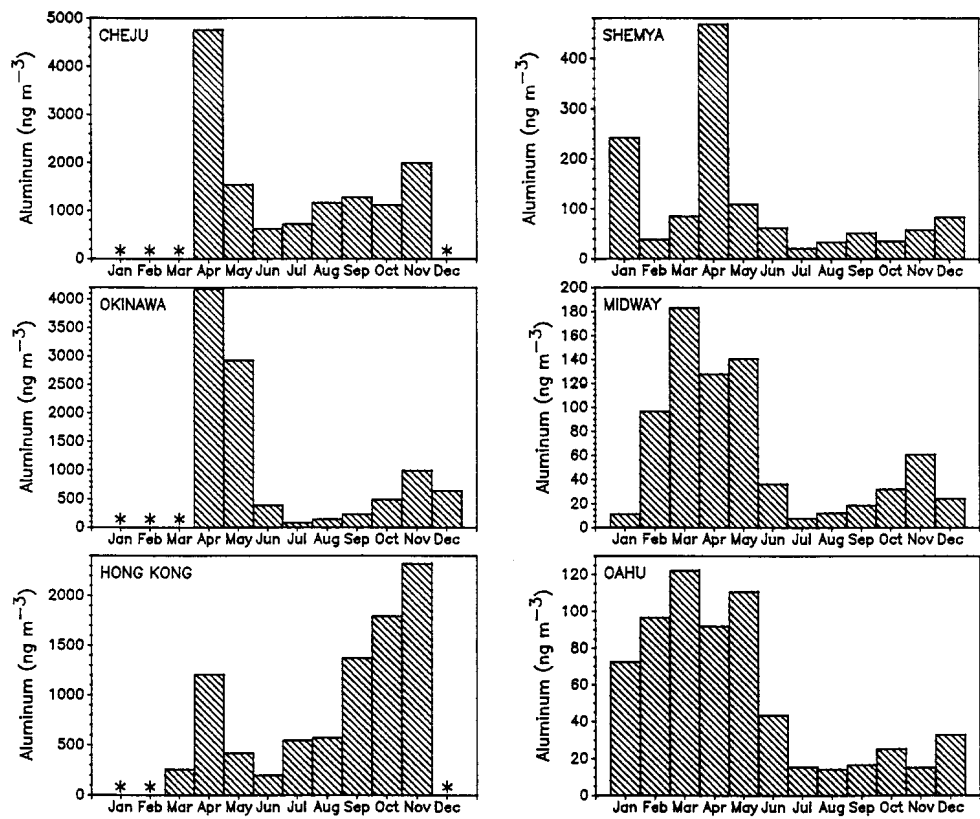

Figure 3.4 Monthly mean Al aerosol concentrations in the North Pacific PEM-West network (Arimoto et al., 1995b).
